GOOD MORNING

A calm morning should not begin by queuing at a buffet. We serve breakfast in several courses, bringing seasonal ingredients and the kitchen's latest creations to your table. Throughout the morning, you'll also have the opportunity to choose from a selection of carefully chosen dishes.

Breakfast begins with a shared first serving of the day's bread from Dan Bakstudio. The bread is served with cultured butter, selected cheese, charcuterie, preserves, pickled vegetables and greens.

Breakfast concludes with a sweet course served to everyone at the table.
